

2016-17 COMMITTEES

I propose to dedicate one meeting per quarter (which can serve as our Club Assembly) to facilitate committee meeting and work. I propose four committees as below. We identified many good ideas at our Visioning session, and it is my hope that this slightly more organized structure will help us focus on those ideas more intentionally. I've listed the most popular Visioning Priorities as they would fall under each committee as information; but it will be up to each committee to determine their priorities and goals. It is also my hope that this allows more BFRians to participate in committee work. We would use the announcements time at the next regular meeting following our Committee Meeting/Club Assembly; for committees to report out on their work and ideas.

This structure also serves to support and implement some of the Ideas of Consensus about our Club that were raised during our Visioning Process:

- Highly Participatory
- Leadership Opportunities
- Fun

Community Service:

Covers volunteer, grants and other community service.

- Co-Chairs: Joe Hinton and Sara Kirkpatrick
